## Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

### for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

*This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.*

Report Period: From March, 2021 To March, 2022

Permit No. ILR40 0333

#### MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: City of Elgin Mailing Address 1: 150 Dexter Court

Mailing Address 2: \_\_\_\_\_ County: Kane

City: Elgin State: IL Zip: 60120 Telephone: (847) 931-6150

Contact Person: Eric Weiss, P.E. Email Address: weiss\_e@cityofelgin.org  
(Person responsible for Annual Report)

#### Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

City of Elgin

#### THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- |  |                          |   |                          |
|--|--------------------------|---|--------------------------|
| 1. Public Education and Outreach             | <input type="checkbox"/> | 4. Construction Site Runoff Control       | <input type="checkbox"/> |
| 2. Public Participation/Involvement          | <input type="checkbox"/> | 5. Post-Construction Runoff Control       | <input type="checkbox"/> |
| 3. Illicit Discharge Detection & Elimination | <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping | <input type="checkbox"/> |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle ( including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

**Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))**

Annual Facility Inspection Report  
General NPDES Permit for Discharges from  
Small Municipal Separate Storm Sewer Systems (MS4s)**

# **City of Elgin, Illinois**

## **2022 ANNUAL FACILITY INSPECTION REPORT March 2021 to March 2022 Reporting Period**

### **A. CHANGES TO BEST MANAGEMENT PRACTICES**

There have been no changes to the Best Management Practices (BMPs) from the City's Notice of Intent (NOI) for the reporting period.

### **B. STATUS OF COMPLIANCE WITH PERMIT CONDITIONS**

The City committed to a number of stormwater BMPs in order to meet the requirements of the City's MS4 permit. The City has developed a Stormwater Management Plan and Notice of Intent (NOI) for its MS4 program, and has posted them to the City's webpage along with each year's annual program report.

The following is a status report on each of the BMPs and the activities that were performed during the reporting period. The status or progress for each of the measurable goals related to these BMPs is described below.

#### **BMP No. A1 Distributed Paper Material**

**Measurable Goal(s):** Annually insert stormwater pollution prevention related articles in water bills and distribute brochures regarding the City's recycling and curbside leaf pick-up programs.

**Milestone:** **Insert articles in water bills and continue distribution of brochures.**

**BMP Status:** The City continues to make stormwater pollution prevention information materials available at City facilities, on the City website, and through social media (such as Facebook and Twitter), including information about how to reduce pollutants in stormwater runoff (such as the City's rain barrel program (offering subsidized rain barrels to Elgin residents for a reduced cost), Earth Day, recycling, leaf pick-up programs, river clean-up events, and Adopt A Catch Basin). Earth Day and other public events were not held this year due to COVID-19.

**BMP No. A2 Speaking Engagement**

**Measurable Goal(s):** Make three stormwater pollution prevention presentations at City Council meetings or at special events such as the Public Works Open House, Earth Day, or the Farmer's Market, to distribute flyers and speak with the public about stormwater pollution prevention.

**Milestone:** **Make three stormwater pollution prevention presentations.**

**BMP Status:** The Sustainability Commission meets monthly and typically includes presentations and discussion related to the City's sustainability initiatives. These meetings are open to the public.

The usual Public Works Facility Open House and Earth Day, and events were not held in 2021 due to COVID-19. Outreach at an Elgin Harvest Market event did occur.

The City continues to target outreach for homeowner associations on stormwater pollution prevention and maintenance of private stormwater best management practices.

**BMP No. A4 Community Event**

**Measurable Goal(s):** Host a Public Works Facility Open House and an Earth Day Celebration event each year.

**Milestone:** **Continue to host an Open House.**

BMP Status: The Public Works Facility Open House and Earth Day events were not held in 2021 due to COVID-19.

**BMP No. A5 Classroom Education Material**

Measurable Goal(s): Arrange for classroom education on water quality topics in Elgin schools each year, provided by the Kane-DuPage Soil and Water Conservation District and Baxter & Woodman, Inc.

Milestone: **Provide classroom education on water quality topics in one or more Elgin schools.**

BMP Status: The Kane-DuPage Soil and Water Conservation District (KDSWCD) provides educational programs on watersheds, land use, water pollution, wetlands, soil and groundwater.

The Friends of the Fox River (FOTFR), on behalf of the City of Elgin, provided the following educational programs this reporting period:

- FOTFR held in-stream education experiences, classroom watershed education sessions, and virtual watershed education sessions for various schools including Harvest Christian Academy, Channing Elementary, Otter Creek Elementary, Elgin Academy, and Elgin Math and Science Academy. A list of these events is attached at the end of this report.
- FOTFR created a “Watershed Academy” series in response to the COVID-19 pandemic. The series was a set of daily activities for families to participate in together and explore nature in their yard or close to home. FOTFR continues to post daily on social media sites.
- Other educational videos were made and distributed to teachers who have used them in their classrooms and available on the FOTFR YouTube channel.
- FOTFR continued to distribute the “Watershed News” as a newsletter and blog series.

**BMP No. A6 Other Public Information**

Measurable Goal(s): Provide refuse and recycling information on the City’s web page.

Milestone: **Provide refuse and recycling information on the City’s web page.**

BMP Status: The City provides a comprehensive solid waste program designed to encourage recycling and waste reduction and to reduce litter in Elgin neighborhoods. By promoting proper disposal of waste, the City reduces illegal dumping in waterways. The City’s web page provides general guidelines about the refuse and recycling program, but also provides specific information about disposal of household hazardous waste and yard waste as well as composting.

The City also continues to implement a non-emergency Household Hazardous Waste Hotline to provide residents with information about easy and effective methods of hazardous waste removal.

**BMP No. B2 Educational Volunteer**

Measurable Goal(s): Annually coordinate a public participation event with a local stakeholder group.

Milestone: **Coordinate a public participation event with a local stakeholder group.**

BMP Status: The City continues to sponsor and partner with Friends of the Fox River to perform stream clean-up and monitoring events:

- FOTFR held public outreach activities during this reporting period including the Elgin Fox Trot, Spring and Fall River clean-ups, and Environmental Volunteer Day at the Elgin Natural History Museum.
- FOTFR worked with the City of Elgin and the greater Kane County Wild Ones on the “Start in Your Yard” program to create habitat in homeowner yards and public spaces. Coordinated over Zoom.

**BMP No. B3 Stakeholder Meeting**

Measurable Goal(s): Attend meetings with stakeholders such as the Kane-DuPage Soil and Water Conservation District, Friends of the Fox River, and Fox River Ecosystem Partnership.

Milestone: **Attend stakeholder meetings each year.**

BMP Status: The City continued its coordination with several stakeholder groups throughout 2021, including the Fox River Study Group, Friends of the Fox River, and the Tyler Creek Watershed Coalition.

**BMP No. B5 Volunteer Monitoring**

Measurable Goal(s): Establish and annually publicize a hotline for resident reporting of suspected illicit discharges. This hotline will be separate from the City's existing emergency response hotline (911) and will be used in non-emergency situations.

Milestone: **Continue to publicize a hotline for resident reporting of suspected illicit discharges.**

BMP Status: The City utilizes the 311 Contact Center for resident reporting of illicit discharges, illegal dumping and other stormwater management issues. Depending on the severity of the reported incident, an emergency response team may be dispatched. In non-emergency situations, the Public Works Department will typically respond. All incoming calls for service requests are turned into work requests for resolution by a City Department. The City continues to utilize the free Elgin 311 mobile app, which makes it even easier than the traditional 311 hotline for residents to report stormwater problems, such as illicit discharges, illegal dumping and other stormwater management issues.

**BMP No. B6 Program Coordination**

Measurable Goal(s): Provide a link to stakeholder web pages from the City's web page.

Milestone: **Continue to provide a link to the stakeholder web pages from the City's web page.**

BMP Status: The City continued to maintain its Stormwater Pollution Prevention web page. The City provides links to various programs that help improve water quality by working to eliminate pollutants, such as: Rain Barrel Program, City Waste Collection, Kane County Recycles, and the Sustainability Action Plan. The City also provides links to stakeholder websites, such as: Kane County Stormwater Management, Kane-DuPage Soil and Water Conservation District, Friends of the Fox River, Fox River Ecosystem Partnership, Fox River Study Group, the Sierra Club, The Conservation Foundation, Tyler Creek Watershed Coalition, and the Ferson-Otter Creek Watershed Coalition. In addition, the web page continues to provide information about the impacts of stormwater discharges on water bodies and lists steps the public can take to reduce pollutants in stormwater runoff.

**BMP No. B7 Public Reporting**

Measurable Goal(s): The City will continue assessing environmental justice; if applicable, the City will begin identifying appropriate public involvement/participation, which may include providing notices to residents written in Spanish (or other applicable language) and/or providing a translator at a public meeting held annually. Continue to inform residents of the contact number to call to report stormwater related issues.

Milestone: **Continue to evaluate potential environmental justice areas. The following link shall be used to identify any environmental justice areas within the City: <http://epa.gov/environmentaljustice/>. Continue to inform residents of the contact number to call for reporting stormwater related issues.**

BMP Status: The City completed a stormwater program focused environmental justice assessment. Results indicated value in providing program materials in Spanish language.

**BMP No. C1 Storm Sewer Map Preparation**

Measurable Goal(s): Update the Storm Sewer Map as needed.

Milestone: **Continue adding new subdivisions to the storm sewer map.**

BMP Status: The City updated its storm sewer mapping with any changes needed during 2021.

**BMP No. C2 Regulatory Control Program**

Measurable Goal(s): Enforce the City Code.

Milestone: **Continue to enforce the City Code.**

BMP Status: The City continues to enforce Ordinance G52-07, which effectively prohibits non-stormwater discharges to its separate storm sewer system. Ordinance G52-07 includes all of the elements of the Center for Watershed Protection's model illicit discharge and connection ordinance.

**BMP No. C3 Illicit Discharge Detection/Elimination Prioritization Plan**

Measurable Goal(s): Prioritize areas of the City or specific outfalls which require more frequent screening. Conduct inspections of industrial or commercial properties annually to determine compliance with the City Code.

Milestone: **Continue inspections of industrial properties.**

BMP Status: Follow-up business inspection contacts were made in 2021.  
  
Illicit discharge investigations were performed in August 2021. Investigation memos were prepared and water quality issues were addressed.

**BMP No. C4 Illicit Discharge Tracing Procedures**

Measurable Goal(s): Develop procedures to trace detected illicit discharges. Trace all illicit discharges detected by resident reporting, visual dry weather screening, and inspection of commercial and industrial properties.

Milestone: **Continue tracing illicit discharges.**

BMP Status: The City has developed Illicit Discharge Tracing Procedures and continues to trace all illicit discharges detected by

resident reporting, visual dry weather screening, and inspection of commercial and industrial properties.

**BMP No. C5 Illicit Source Removal Procedures**

Measurable Goal(s): Develop procedures to remove detected illicit discharges. Remove illicit discharges detected by resident reporting, visual dry weather screening, and inspection of commercial and industrial properties.

Milestone: **Continue removing illicit discharges.**

BMP Status: The City continues its work to remove all illicit discharges detected by resident reporting, visual dry weather screening, and inspection of industrial properties.

**BMP No. C6 Program Evaluation and Assessment**

Measurable Goal(s): Evaluate and assess the effectiveness of the illicit discharge detection and elimination program. Revise the program as necessary.

Milestone: **Evaluate and assess the effectiveness of the program. Revise the program as necessary.**

BMP Status: The illicit discharge detection and elimination program continues to be enforced. Procedures for reporting and documenting suspected illicit storm sewer discharges have been adopted and provided to Public Works staff. A placard with the procedures is kept in each Public Works staff vehicle at all times.

**BMP No. C7 Visual Dry Weather Screening**

Measurable Goal(s): Perform visual dry weather screening of City outfalls according to the Detection/Elimination Prioritization Plan.

Milestone: **Perform visual dry weather screening.**

BMP Status: The City continued its work to screen stormwater outfalls during dry weather to identify potential illicit discharges. It has adopted a modified version of the Center for Watershed Protection's Outfall Reconnaissance Inventory as its visual

dry weather outfall screening protocol. Over 50 outfalls were screened in August 2021. There were four potential illicit discharges identified. One of the potential illicit discharges identified was at previously determined priority outfall located along Tyler Creek off W Highland Ave and Spring Cove Dr. During initial screening, the area around the outfall had a layer of rusty foam on the surface as well as rust-colored stains on surrounding rocks. The three other potential discharges were located at basins along Russel Rd, Glavin Dr, and W Main St. During initial screening, these locations had excessive algae in the water pools. No evidence of illicit discharging was observed at any of the nearby inlets. These locations will be screened for potential illicit discharges again in the next reporting year.

The City's priority list of outfalls was created in 2015; inspection of high priority outfalls and a portion of the City's other outfalls will continue.

**BMP No. C9 Public Notification**

Measurable Goal(s): Install inlet grates cast with “Dump No Waste, Drains to River” for all new inlets installed with street resurfacing projects or apply decals to existing inlet structures.

Milestone: **Continue to label inlet structures with street resurfacing projects.**

BMP Status: The City's construction standards require “Dump No Waste, Drains To River” to be cast into all new grate and storm drain inlets. On street resurfacing projects where new storm drain inlets are not required, decals are applied to the existing inlet structures.

**BMP No. D1 Regulatory Control Program**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance. During the reporting period,

the City issued 28 ROW permits, 7 soil permits, and 157 utility permits.

**BMP No. D2 Erosion and Sediment Control BMPs**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance, which requires soil erosion and sediment control BMPs.

**BMP No. D3 Other Waste Control Program**

Measurable Goal(s): Enforce the City Code.

Milestone: **Continue to enforce the City Code.**

BMP Status: The City continues to enforce Ordinance G52-07, which effectively prohibits non-stormwater discharges to its separate storm sewer system. Ordinance G52-07 includes all of the elements of the Center for Watershed Protection's model illicit discharge and connection ordinance.

**BMP No. D4 Site Plan Review Procedures**

Measurable Goal(s): Review site plans to ensure conformance to the Kane County Stormwater Ordinance.

Milestone: **Continue to review site plans to ensure conformance to the Kane County Stormwater Ordinance.**

BMP Status: The City continues to review site plans to ensure compliance with the Kane County Stormwater Ordinance.

**BMP No. D5 Public Information Handling Procedures**

Measurable Goal(s): Establish and annually publicize a hotline for resident reporting of suspected soil erosion.

Milestone: **Continue to publicize a hotline for resident reporting.**

BMP Status: The City utilizes the 311 contact center as well as the 311 mobile app for resident reporting of erosion and other stormwater management issues. Depending on the severity of the reported incident, an emergency response team may be dispatched. In non-emergency situations, the Engineering Department or Public Works Department will typically respond. All incoming calls for service requests are turned into work requests for resolution by a City Department.

**BMP No. D6 Site Inspection/Enforcement Procedures**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance, which contains site inspection and enforcement procedures. For the reporting period, 192 local permits were issued. Stormwater inspections were performed as necessary.

**BMP No. E2 Regulatory Control Program**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance, which contains site inspection and enforcement procedures. For the reporting period, 192 local permits were issued. Stormwater inspections were performed as necessary.

**BMP No. E3 Long Term O&M Procedures**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance, which contains long term operation and maintenance procedures.

**BMP No. E4 Pre-Construction Review of BMP Designs**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance, which requires pre-construction review of BMP designs.

**BMP No. E5 Site Inspections During Construction**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

BMP Status: The City has adopted and continues to enforce the Kane County Stormwater Ordinance, which contains site inspection and enforcement procedures. For the reporting period, 192 local permits were issued. Stormwater inspections were performed as necessary.

**BMP No. E6 Post-Construction Inspections**

Measurable Goal(s): Inspect each City-owned detention basin once every five years.

Milestone: **Inspect 20% of the City-owned detention basins.**

BMP Status: The City performed 44 basin inspections in 2021.

**BMP No. E7 Other Post-Construction Runoff Controls**

Measurable Goal(s): Schedule an on-site meeting with representatives of a homeowner association (HOA) to visit on-site detention basins and nearby streams.

The City will begin developing and implementing a process to assess the impacts of global climate change in the design of all new and retrofit flood management projects. Information on climate change may be found at the following website link:  
<http://www.epa.gov/climatechange/>.

Milestone: **Schedule at least one meeting with a local HOA to discuss stormwater pollution prevention and proper maintenance and upkeep of the detention basins.**

**The City has continued developing and implementing a process to assess the impacts of global climate change in the design of all new and retrofit flood management projects. Information on climate change may be found here: <http://www.epa.gov/climatechange/>.**

BMP Status: On-site HOA meetings were not requested or necessary in 2021. The City will continue to provide information and assistance to local HOAs as needed.

The City will continue implementing a process to assess the impacts of global climate change in the design of all new and retrofit flood management projects.

**BMP No. F1 Employee Training Program**

Measurable Goal(s): Formalize stormwater pollution prevention training for City employees. Conduct formal stormwater pollution prevention training for City employees annually.

Milestone: **Continue stormwater pollution prevention training program for City employees.**

BMP Status: City staff training was performed on March 3, 2022. The training focused on new development project review, pollution prevention for municipal operations, as well as illicit discharge detection and elimination. The training sessions remind, inform, and encourage City staff to prevent

and reduce stormwater pollution from municipal operations and to document activities that prevent pollution.

**BMP No. F2 Inspection and Maintenance Program**

Measurable Goal(s): Formalize an Inspection and Maintenance Program for City facilities and infrastructure. Conduct formal inspection and maintenance. Annually review the program for effectiveness and update the program as needed. Begin training employees in the routine maintenance, repair, or replacement of green infrastructure.

Milestone: **Begin training employees or contractors in the routine maintenance, repair, or replacement of green infrastructure.**

BMP Status: The City has developed written Inspection and Maintenance Procedures, along with standard forms for tracking inspections and maintenance of the stormwater management system. These forms are used for the maintenance, repair, or replacement of green infrastructure as well as to evaluate the Inspection and Maintenance program to determine how the program can be improved.

The City continued to maintain its naturalized detention basins and other stormwater infrastructure.

**BMP No. F3 Municipal Operations Stormwater Control**

Measurable Goal(s): Formalize a Stormwater Pollution Prevention Plan for the City's municipal operations. Annually review the plan for effectiveness and update the program as needed. The City currently stores deicing material in a permanent building. The City will continue to store deicing material in this manner.

Milestone: **Document periodic inspections of City facilities according to the Stormwater Pollution Prevention Plan. Continue to store deicing material in a permanent building.**

BMP Status: The City has continued implementing a Stormwater Pollution Prevention Plan for its municipal operations. The plan describes the potential sources of stormwater pollutants

related to operations at various City facilities, the stormwater management measures and controls used to prevent pollution, potential future BMPs, and forms for periodic inspections.

This reporting year, 1,928 system catch basins were cleaned and inspected, 20% of the storm water system was cleaned and inspected, and the City continued its routine City-wide street sweeping program, which includes approximately 13,236 lane-miles of roads.

**BMP No. F4 Municipal Operations Waste Disposal**

Measurable Goal(s): Formalize a Municipal Operations Waste Disposal Plan. Annually review the plan for effectiveness and update the program as needed.

Milestone: **Continue proper waste disposal procedures for waste generated by municipal operations.**

BMP Status: A plan for the disposal of waste generated by municipal operations is included in the City's Inspection and Maintenance Procedures.

**BMP No. F6 Other Municipal Operations Control**

Measurable Goal(s): Continue to participate with the Friends of the Fox River as well as the Tyler Creek Watershed Coalition, in an ongoing effort to assist with the reduction in chloride levels in receiving streams.

Milestone: **Continue to participate with various agencies such as the Friends of the Fox River, the Fox River Ecosystem Partnership, the Fox River Study Group, and the Tyler Creek Watershed Coalition in order to assist with the reduction in chloride levels in receiving streams.**

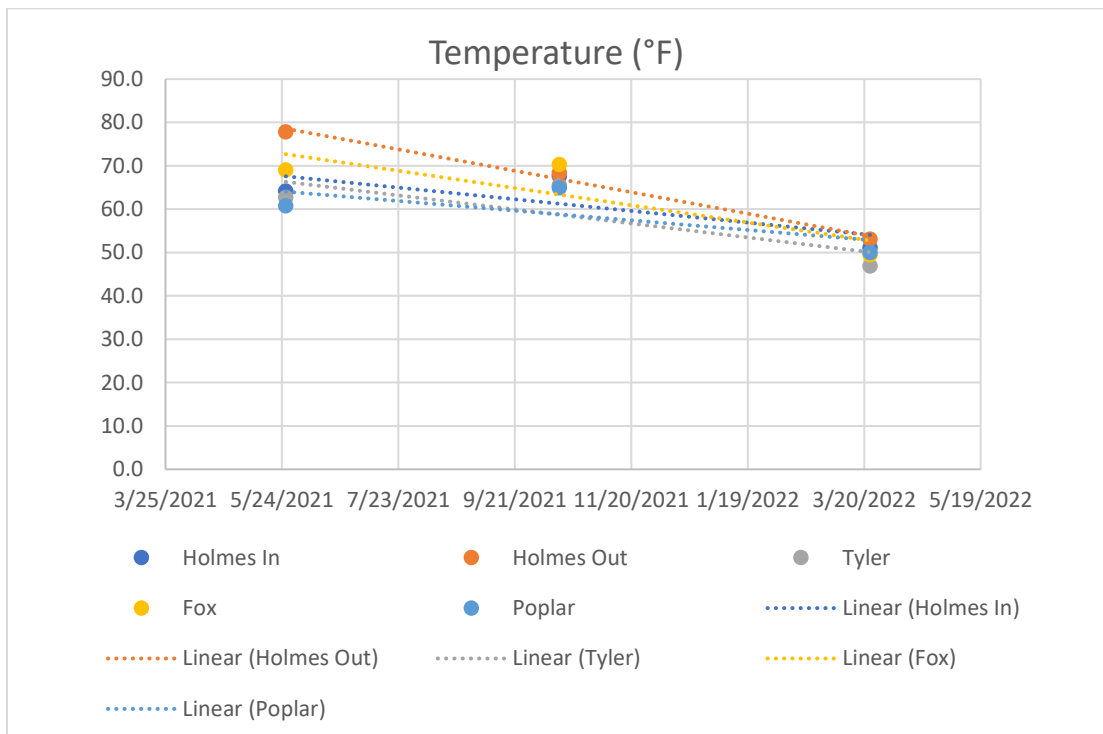

BMP Status: The City has continued participating with various agencies such as the Friends of the Fox River, the Fox River Ecosystem Partnership, the Fox River Study Group, the Tyler Creek Watershed Coalition, and others, to assist with the reduction in chloride levels in receiving streams.

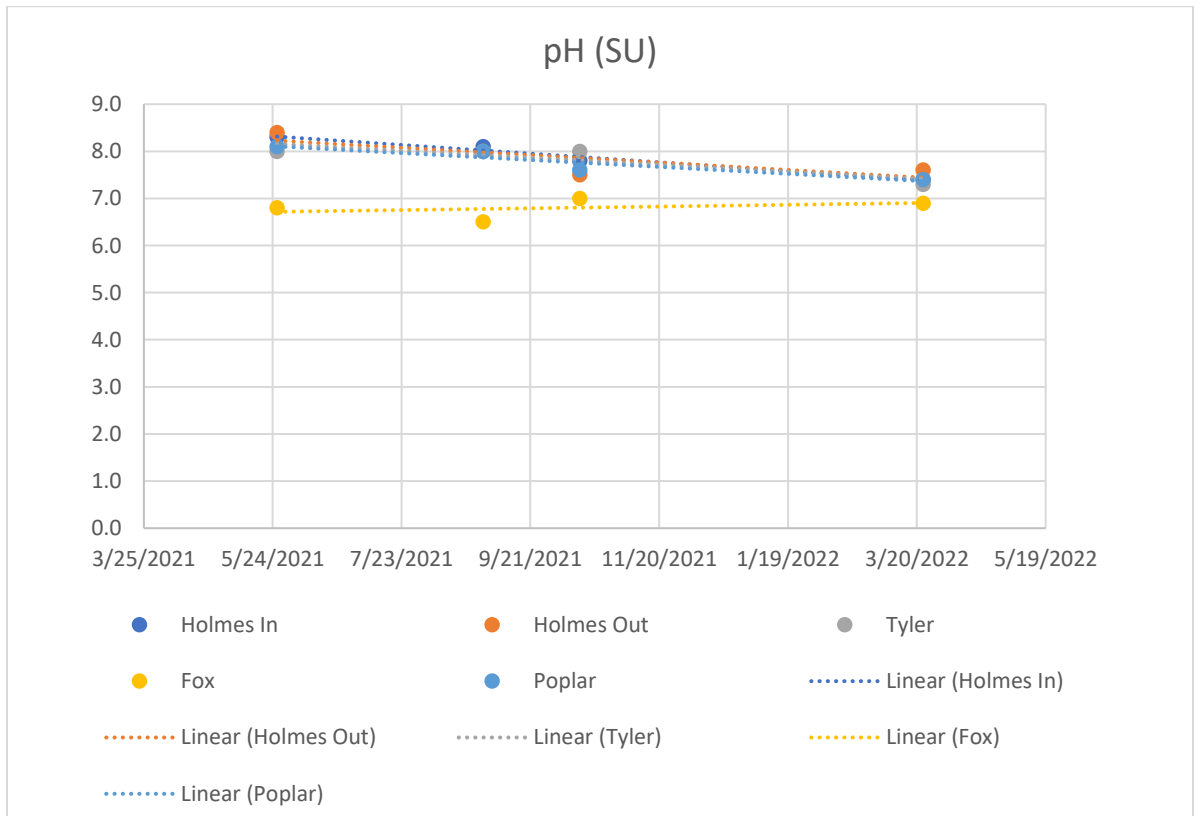

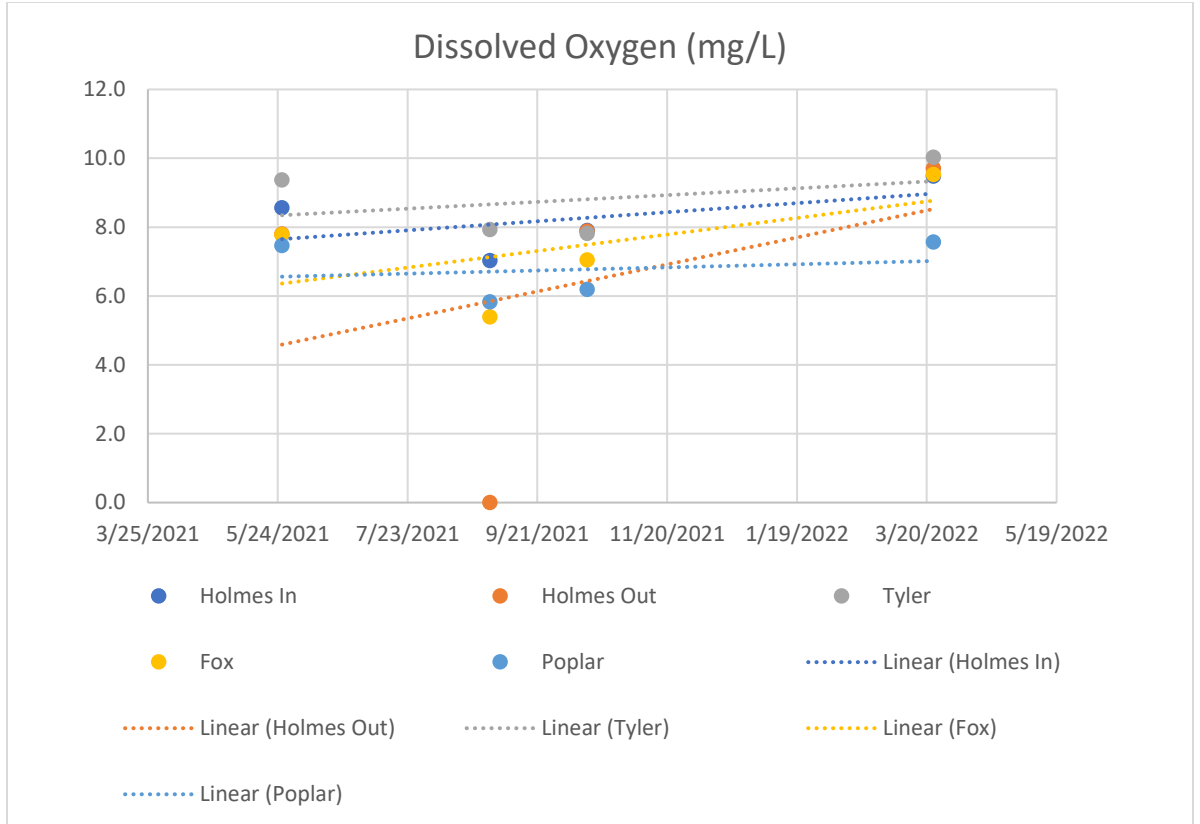

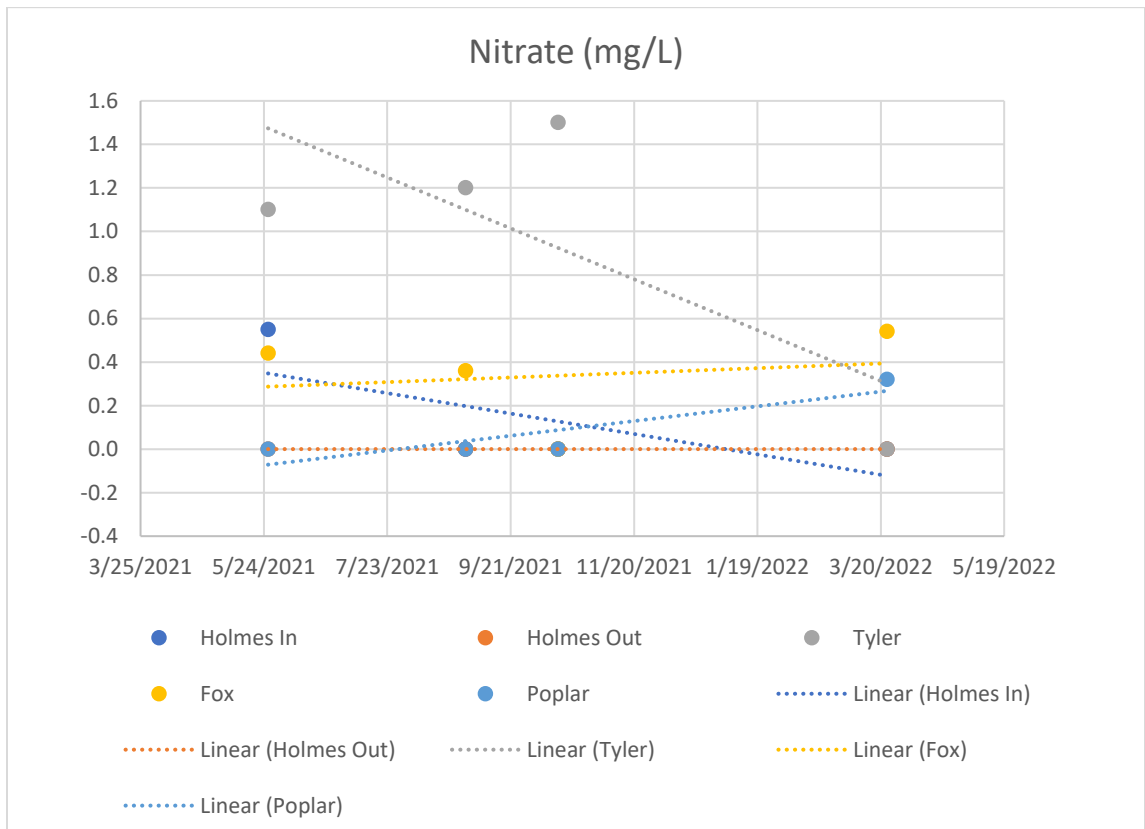

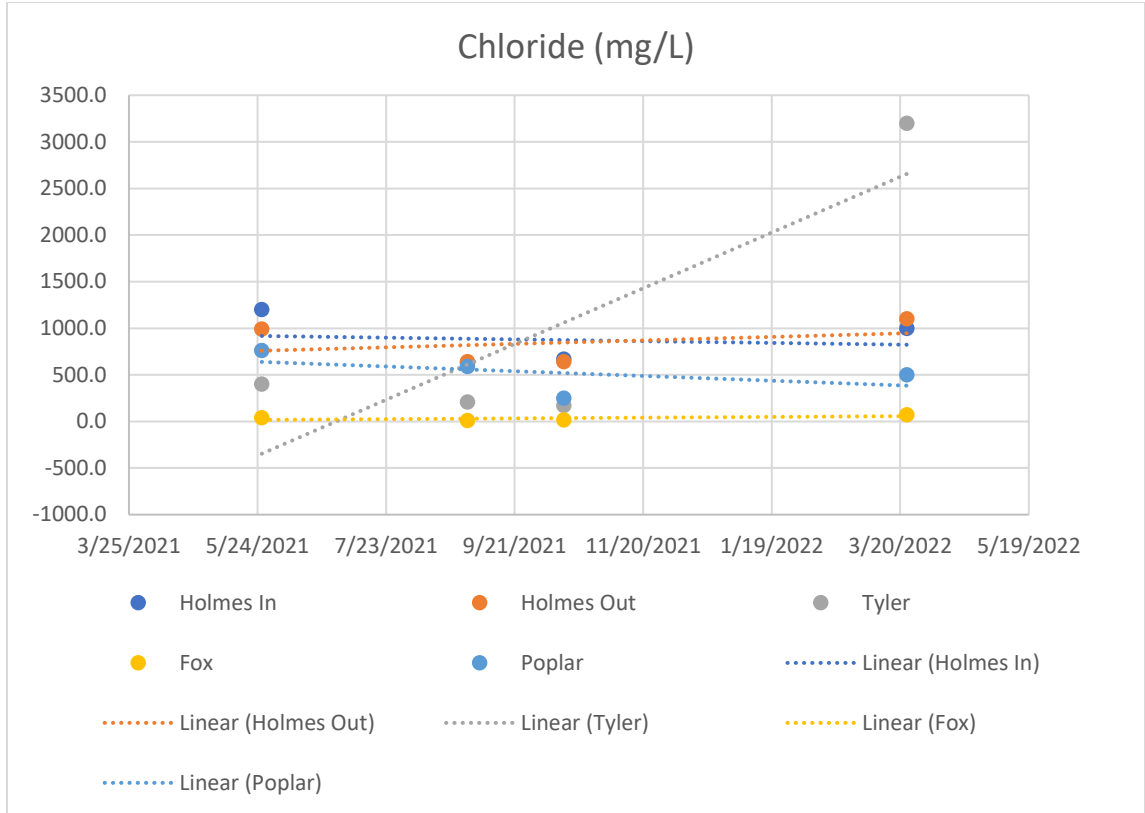

**C. RESULTS OF INFORMATION COLLECTED AND ANALYZED**

Storm drain system discharge samples are collected during wet weather each year in the Spring, Summer, Fall, and Winter. The samples are collected at outfalls to the Fox River, Poplar Creek, and Tyler Creek, as well as at the inflow and outflow from the McLean Blvd/Holmes Rd detention basin. Sample results are used to evaluate the effectiveness of the City’s BMPs and MS4 program.

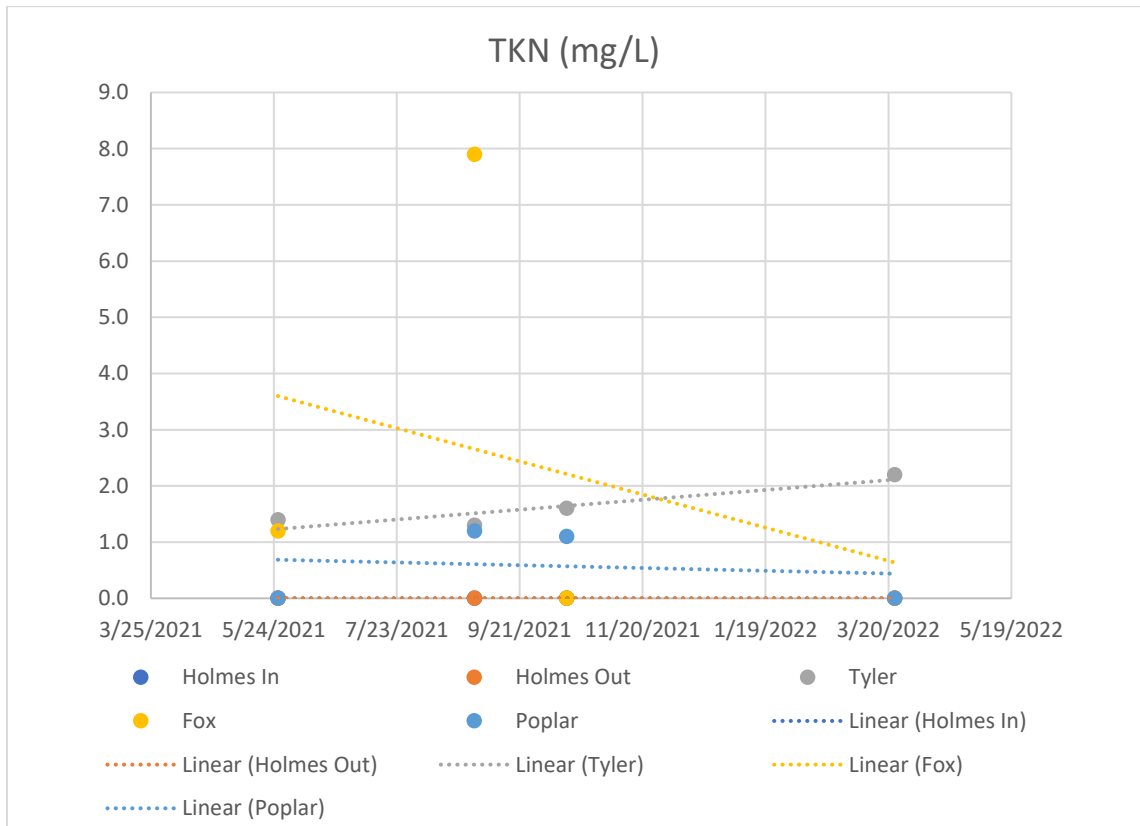

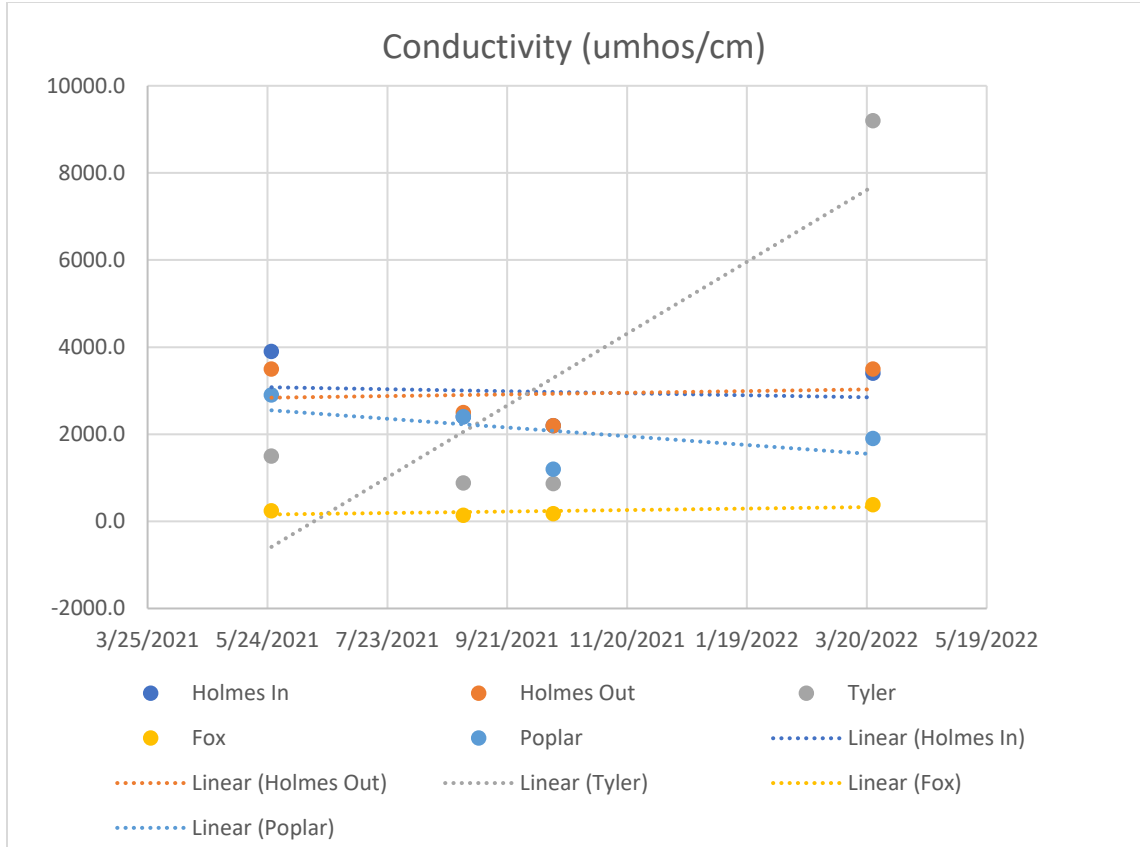

Wet weather samples were collected on May 26, August 30, October 14, 2021 and March 23, 2022. The water quality analysis results for the samples are shown in the plots below, and are on file with historic sample results for review.

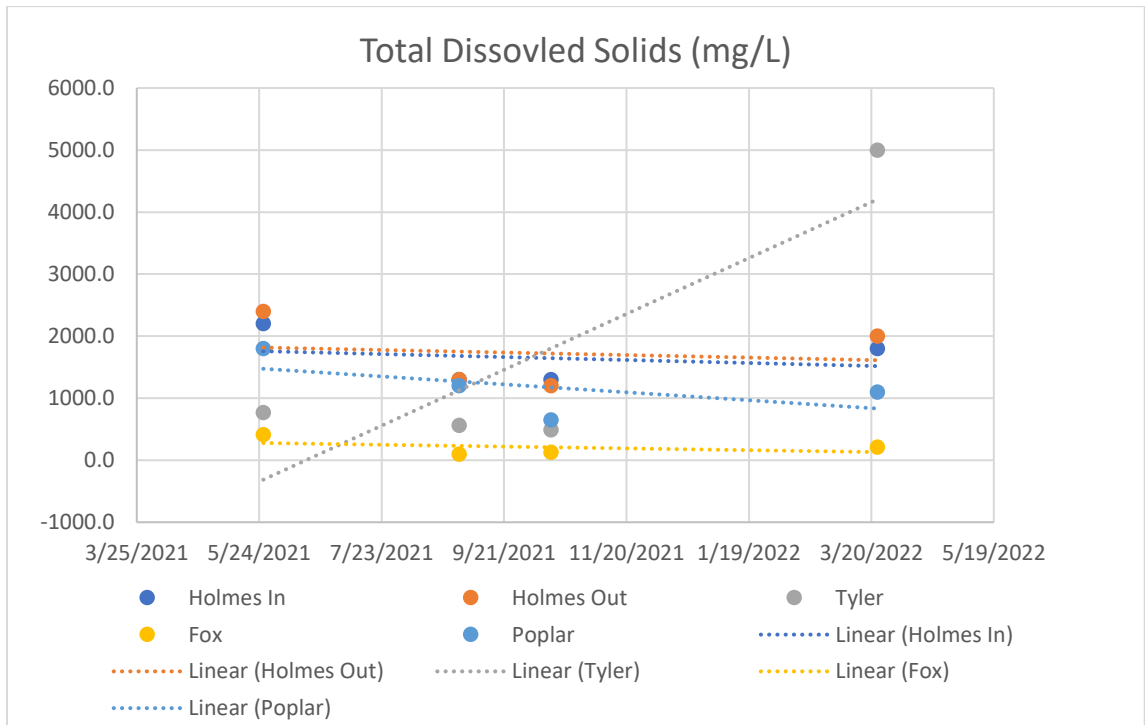

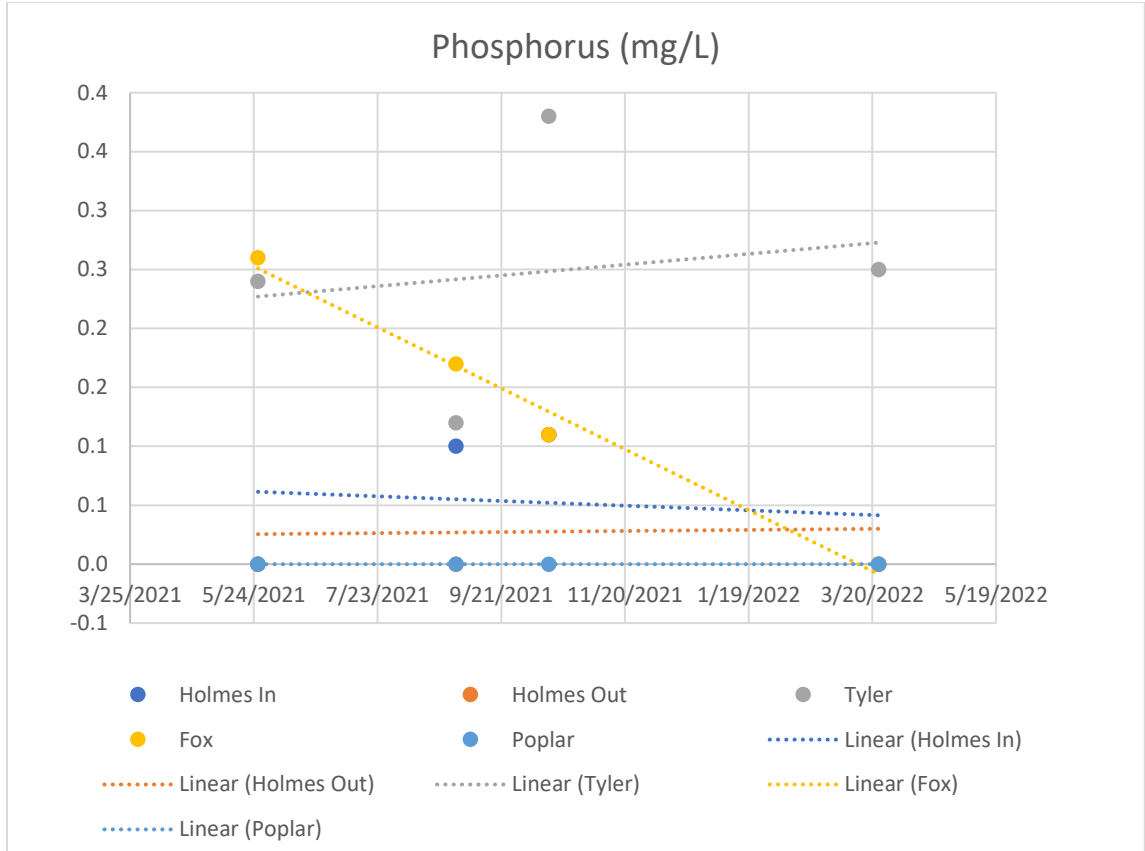

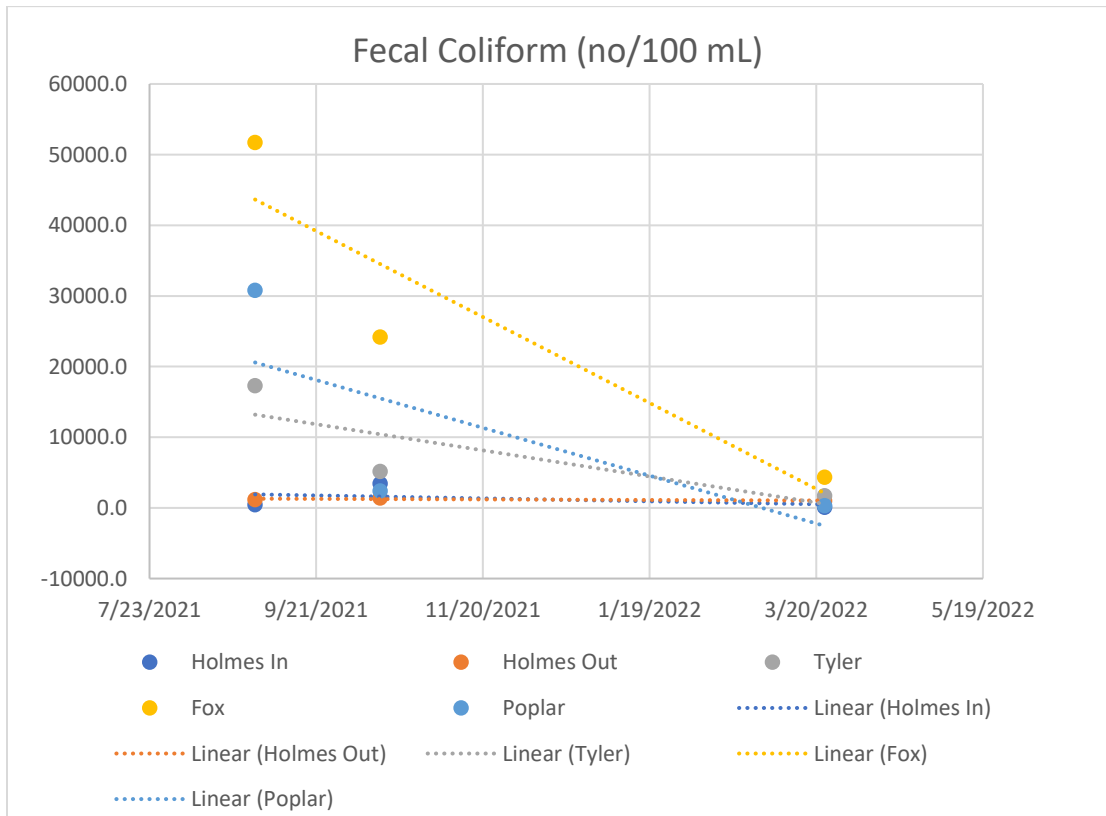

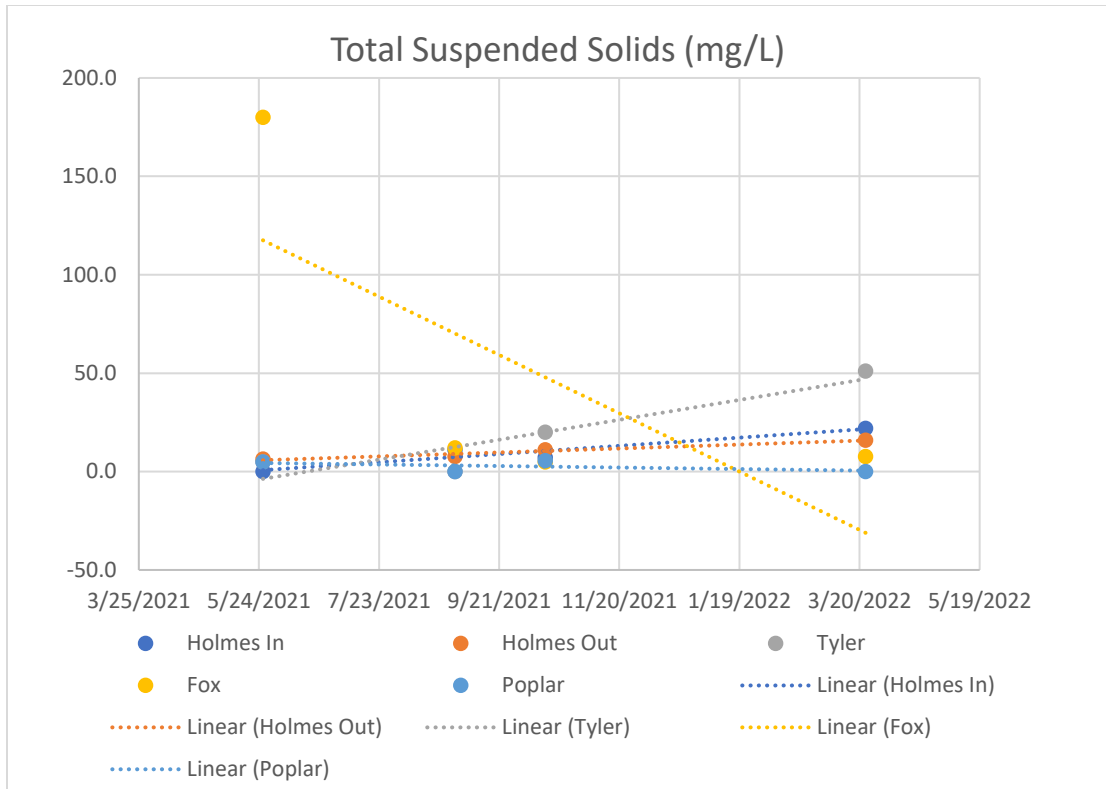

**D. SUMMARY OF STORMWATER ACTIVITIES TO BE PERFORMED DURING NEXT REPORTING PERIOD**

A summary of the stormwater activities that the City plans to undertake during the next reporting period are summarized below:

**BMP No. A1 Distributed Paper Material – Stormwater Newsletter Articles**

Measurable Goal(s): Annually insert stormwater pollution prevention related articles in the water bills and distribute brochures regarding the City’s recycling and curbside leaf pick-up programs.

Milestone: **Insert articles in water bills and continue distribution of brochures. The Sustainability Commission to continue collaborating with the local library district to include several pages in the library’s newsletter that is direct mailed to households.**

**BMP No. A2 Speaking Engagement - Stormwater Pollution Prevention Presentations**

Measurable Goal(s): Annually make three stormwater pollution prevention presentations at City Council meetings or at special events such as the Public Works Open House, Earth Day, or the Farmer’s Market, to distribute flyers and speak with the public about stormwater pollution prevention.

Milestone: **Make three stormwater pollution prevention presentations.**

**BMP No. A4 Community Event**

Measurable Goal(s): Annually host a Public Works Facility Open House and an Earth Day Celebration event.

Milestone: **Continue to host an Open House and Earth Day Celebration event.**

**BMP No. A5 Classroom Educational Material**

Measurable Goal(s): Annually arrange for classroom education on water quality topics in Elgin schools provided by the Kane-DuPage Soil and Water Conservation District.

Milestone: **Provide classroom education on water quality topics in one or more Elgin schools.**

**BMP No. A6 Other Public Education**

Measurable Goal(s): Provide refuse and recycling information on the City's web page.

Milestone: **Continue to provide refuse and recycling information on the City's web page.**

**BMP No. B2 Educational Volunteer**

Measurable Goal(s): Annually coordinate a public participation event with a local stakeholder group.

Milestone: **Coordinate a public participation event with a local stakeholder group.**

**BMP No. B3 Stakeholder Meeting**

Measurable Goal(s): Annually attend meetings with stakeholders such as Kane-DuPage Soil and Water Conservation District, Friends of the Fox River, and Fox River Ecosystem Partnership.

Milestone: **Annually attend stakeholder meetings.**

**BMP No. B6 Program Coordination**

Measurable Goal(s): Provide a link to stakeholder web pages from the City's web page.

Milestone: **Continue to provide a link to the stakeholder web pages from the City's web page.**

**BMP No. C1 Storm Sewer Map Preparation**

Measurable Goal(s): Annually update the Storm Sewer Map as needed.

Milestone: **Annually update the Storm Sewer Map, as needed.**

**BMP No. C2 Regulatory Control Program**

Measurable Goal(s): Enforce the City Code.

Milestone: **Continue to enforce the City Code.**

**BMP No. C3 Illicit Discharge Detection/Elimination Prioritization Plan**

Measurable Goal(s): Prioritize areas of the City or specific outfalls which require more frequent screening. Annually conduct inspections of industrial or commercial properties to determine compliance with the City Code.

Milestone: **Continue inspections of industrial properties.**

**BMP No. C4 Illicit Discharge Tracing Procedures**

Measurable Goal(s): Develop procedures to trace detected illicit discharges. Annually trace all illicit discharges detected by resident reporting, visual dry weather screening, and inspection of commercial and industrial properties.

Milestone: **Continue tracing illicit discharges.**

**BMP No. C5 Illicit Discharge Removal Procedures**

Measurable Goal(s): Develop procedures to remove detected illicit discharges. Annually remove all illicit discharges detected by resident reporting, visual dry weather screening, and inspection of commercial and industrial properties.

Milestone: **Continue removing illicit discharges.**

**BMP No. C6 Program Evaluation and Assessment**

Measurable Goal(s): Annually evaluate and assess the effectiveness of the illicit discharge detection and elimination program. Annually revise the program as necessary.

Milestone: **Evaluate and assess the effectiveness of the program. Revise the program, as necessary.**

**BMP No. C7 Visual Dry Weather Screening Program**

Measurable Goal(s): Annually perform visual dry weather screening of City outfalls according to the Detection/Elimination Prioritization Plan.

Milestone: **Perform visual dry weather screening.**

**BMP No. C9 Public Notification – Inlet Grate Castings**

Measurable Goal(s): Install inlet grates cast with “Dump No Waste, Drains to River” for all new inlets installed with street resurfacing projects or apply decals to existing inlet structures.

Milestone: **Continue to label inlet structures with street resurfacing projects.**

**BMP No. D1 Regulatory Control Program**

Measurable Goal(s): Enforce the Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. D2 Erosion and Sediment Control BMPs**

Measurable Goal(s): Enforce the Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. D3 Other Waste Control Programs**

Measurable Goal(s): Enforce the City Code.

Milestone: **Continue to enforce the City Code.**

**BMP No. D4 Site Plan Review Procedures**

Measurable Goal(s): Review site plans to ensure conformance to the Kane County Stormwater Ordinance.

Milestone: **Continue to review site plans to ensure conformance to the Kane County Stormwater Ordinance.**

**BMP No. D5 Public Information Handling Procedures**

Measurable Goal(s): Annually publicize a hotline for resident reporting of suspected soil erosion.

Milestone: **Publicize the hotline for resident reporting.**

**BMP No. D6 Site Inspection/Enforcement Procedures**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. E2 Regulatory Control Program**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. E3 Long Term O&M Procedures**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. E4 Pre-Construction Review of BMP Designs**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. E5 Site Inspections During Construction**

Measurable Goal(s): Enforce the Kane County Stormwater Ordinance.

Milestone: **Continue to enforce the Kane County Stormwater Ordinance.**

**BMP No. E6 Inspection of City-Owned Detention Basins**

Measurable Goal(s): Inspect each City-owned detention basin once every five years.

Milestone: **Inspect 20% of the City-owned detention basins.**

**BMP No. F1 Employee Training Program**

Measurable Goal(s): Formalize stormwater pollution prevention training for City employees. Conduct formal stormwater pollution prevention training for City employees annually.

Milestone: **Perform or provide for annual staff training. The training will focus on pollution prevention for municipal operations as well as illicit discharge detection and elimination. The training sessions remind, inform, and encourage City staff to prevent and reduce stormwater pollution from municipal operations and to document activities that prevent pollution.**

**BMP No. F2 Inspection and Maintenance Program**

Measurable Goal(s): Formalize an Inspection and Maintenance Program for City facilities and infrastructure. Conduct formal inspection and maintenance. Annually review the program for effectiveness and update the program as needed. Begin

training employees in the routine maintenance, repair, or replacement of green infrastructure.

Milestone: **Continue training employees or contractors in the routine maintenance, repair, or replacement of green infrastructure.**

**BMP No. F3 Municipal Operations Storm Water Control**

Measurable Goal(s): Formalize a Stormwater Pollution Prevention Plan for the City's municipal operations. Annually review the plan for effectiveness and update the program as needed. The City currently stores deicing material in a permanent building. The City will continue to store deicing material in this manner.

Milestones: **Document periodic inspections of City facilities according to the Stormwater Pollution Prevention Plan. Continue to store deicing material in a permanent building.**

**BMP No. F4 Municipal Operations Waste Disposal**

Measurable Goal(s): Continually implement the Municipal Operations Waste Disposal Plan. Annually review the plan for effectiveness and update the program as needed.

Milestones: **Continue proper waste disposal procedures for waste generated by municipal operations.**

**E. RELIANCE ON ANOTHER GOVERNMENT ENTITY**

The City of Elgin is not relying on another government entity to satisfy the requirements of the MS4 permit; however, the City does benefit from a number of Kane County's stormwater activities, including a number of Public Education and Outreach BMPs. Please see Kane County's Annual Facility Inspection Report for additional information about these activities. The City also makes use of any data collected and materials produced by the Friends of the Fox River, Fox River Study Group, and the Tyler Creek Watershed Coalition.
